

Kenneth & Shirley LeBlanc, members, are the elected Board of Directors for NAPPB.

Joining as members at the beginning of the association in 2021, they brought experience and knowledge in operating an association to the forefront. Kenneth's knowledge of Native American History is renowned throughout the Native American community. Though he claims he has no native american in himself, he has been adopted into a native american family, taught the history and ways of that family. He has spoken at Texas Tech University, and is a moderator and true historian.

Shirley's grandmother was Comanche, and Shirley carries her heritage with grace. She is a Navy Veteran, and a licensed nurse. She worked in that capacity in Lubbock for many years before retiring. She has taught many women the art of regalia making, beading, cross stitching, dancing and more. She has stepped into the role of Mother to many women. When she and Kenneth attend powwows, she dances Buckskin and Southern Cloth, and he is a Straight Dancer.

Kenneth and Shirley were voted in as Board Members in 2022, and have remained in their positions up to this day.
